NEW SERIES.

SEDALIA, MISSOURI, TUESDAY, NOVEMBER 8, 1892.

PRICE, FIVE CENTS.

## THE ELECTION.

NO GREAT EXCITEMENT PREVAILED AT THE POLLS.

The Day Was One of Hard Work—Everybody "Sawed Wood"—Bright, Clear Weather.

A more perfect day could not have been imagined; the sky was cloudless and the atmosphere was crisp and invigorating.

The rallies last night practically ended the great political battle of 1892. The campaign throughout was one of work rather than words. It lacked the explosive enthusiasm of 1884 in which sober, staid Sedalians jumped up and cracked their heels, wore flambeau suits, shot fire-crackers and in many ways manifested the excitement peculiar to their boyhood days. Of course, in the street discussions each man was certain that his particular ticket would be the successful. There was lots of money staked in Sedalia on national, state and local results.

The crowds around the court house was an orderly one and the candidates and their friends of both parties worked like Turks. There was a commendable absence of anything that tendered to cause bad feeling and Sedalia can congratulate herself that scenes doubtless enacted in many parts of the country to-day were not to be found within her limits.

The two voting precincts afforded sufficient opportunity for all who wished to vote. It was thought at first that four precincts would be needed.

To-night will be a lively one; the streets will be crowded with men eager for the slightest details concerning the results.

### General Results.

Of course nothing is attainable at this hour to give any definite indication of general results. A prediction would be simply a guess, as valuable if made yesterday as it is made to-day. However, New York is believed to be the key to the presidency and the Empire state is regarded as safely democratic. Without New York Harrison cannot expect to get a majority of the electoral college and his chances of losing Illinois, Iowa and Kansas are better than his chance of carrying New York.

### The Vote Here.

There has been an unusually large vote polled in Sedalia, showing that both parties had brought out every voter. At 2:30 o'clock 2,700 votes had been cast and both sides admit that the vote is close. Probably 3,500 votes will be cast.

### At Lamotte.

Special to the Democrat. LAMOTTE, Mo., Nov. 8.—At two o'clock, 165 votes had been cast. Democratic, 100; republican, 65. Very little scratching.

### At Lamotte.

Special to the Democrat. KANSAS CITY, Mo., Nov. 8.—The election passed off quietly and to trouble at all has occurred. At his hour, 3 p. m., everything indicates that Jackson county, including this city, will give a handsome democratic majority.

### Finest in the West.

Special to the Democrat. Vice President Purdy, of the M., K. & T.

M., K. & T. special car No. 1, now used by Vice President Purdy, about ready to go on the road after a thorough remodelling under the direction of Master Car Builder Walker. It is safe to say that there is not a more elegant and sumptuous car in the west. It is finished with the finest carved mahogany in the end and in antique oak the other. The car clears 75 feet in length and is a perfect palace on wheels. In one end is a handsomely furnished observation room with library, sofas, etc., and speed indicator to show the rate which the car travels. Then come two large bedrooms with hot and cold water and every needed appointment. Besides these are several smaller rooms fitted with sleeping berths. A fine bath room and water closets are furnished with every desirable convenience. The pantries, store room and kitchen are models of the kind. The spacious larders are supplied with the best, and the white-capped cooks have everything at hand to

tickle the palates of his diners. Last of all is the dining room, paneled in oak. Sideboards and china closets, finely covered and inlaid with French mirrors, contain delicate china, fine cut glassware and silver service for the table. The car is carpeted throughout with carpets of superb texture and design, and brilliantly lighted with many handsome chandeliers. The decorations are unusually beautiful. Great discernment has been manifested in this particular; the designs and the work being in perfect keeping with the absolute correctness of taste that is seen in every part. The car is heated by steam and can be given any desired degree of temperature.

Vice-President Purdy is to be congratulated upon having such a magnificent car for his private convenience and Master Car Builder Walker and his corps of valuable assistants are to be still more congratulated upon their ability to perform such exacting and highly artistic work.

### THE FINAL RALLY.

Rousing Democratic Mass-Meeting at the Court House.

The democrats held the final rally of the campaign at the court house last night. A splendid audience was present, the large criminal court room being crowded to its utmost capacity.

Hon. John T. Heard, though suffering from a severe cold, braved the chill night air to lend a word of encouragement to his party associates, to thank them for the steadfast support they had given him and to urge a hearty and loyal support of every man on the democratic ticket from Cleveland to Wallace. Mr. Heard was given a magnificent ovation when he entered the room and his remarks, though brief, were loudly cheered by the audience.

Judge George Anderson, of St. Louis, followed in an eloquent appeal for democratic principles, and he captured his audience by the force and vigor of his address.

Hon. Geo. P. B. Jackson was the last speaker, and after a logical and forcible summary of the national and state issues, he touched upon the local campaign as only he can do. He was in his happiest vein, and cold facts, resistless logic and ridicule were the weapons he used most effectively. He kept the audience in a good humor and held their undivided attention despite the lateness of the hour.

It was a grand meeting and put the hosts of democracy in splendid fighting humor for to-day's battle.

### Funny Eddie Foy.

There are few theater goers in Sedalia who have not seen Eddie Foy, the comic opera comedian. He is peculiar sometimes and frequently clashes with his manager. The St. Louis Chronicle relates an incident that occurred there last spring, and says:

Those who attended the performance of "Sinbad" will remember during that week Foy's partiality for the song "Marguerite" was very marked. Every time he came upon the stage he croaked a few strains from the song in a doleful style which was highly amusing.

In an unguarded moment he composed a parody on that much-whiskered but nevertheless pretty ballad, "Marguerite."

With his countenance suffused with the light of his latest achievement he submitted the song to Manager Henderson and that worthy forbade him singing it in "Sinbad."

In a spirit of mischief the comedian sang a few words of the song that very night.

The stage manager fined him. Every night for that whole week Foy insisted on singing "Marguerite," and a large section of his salary was handed over to Henderson in payment of Eddie's license for singing the song.

"See here, Henderson," he said on the next day, "I'm not in this business for money. It's a case of love with me. I'll work for nothing to amuse the public."

### TOTALLY UNTRUE.

The Malignant Story Sent Out From Newton a Misstatement.

NEWTON, KAN., Nov. 8.—Considerable indignation has been aroused among all political parties here at the action of certain republican leaders in sending to the Globe-Democrat and Topeka Capital of Sunday a false report for political effect. It was reported that the Grand Army post in the funeral procession of ex-Mayor McQuiddy was jeered by ex-rebels and populists.

## SHOP AND RAIL.

ITEMS OF INTEREST TO LOCAL TRAINMEN

News About Different Roads, Employers and Employees.

Dr. L. S. Rogers, the Missouri Pacific claim agent, has been suffering with a severe case of lumbago.

Superintendent A. W. Dickinson and party came in yesterday afternoon in his special car, "Convoy," en route west.

E. H. Farley, traveling auditor of the "Katy" went north this morning after swelling the democratic majority.

Olive Barnard, a popular engineer on the Missouri Pacific in Colorado, is visiting his brother, Lafe Barnard, the baker.

The many friends of Tom McGinn, the Missouri Pacific brakeman, who is suffering with tuberculosis of the stomach at the company hospital in St. Louis, will be glad to know that he is much improved.

The cotton shipments on the "Katy" are unusually heavy at present. The consignments from Texas are continuous and immense, being billed principally to Liverpool and Amsterdam, and in some instances to Reval, Russia.

The M., K. & T. railway bridge is being repainted. A force of eight or ten painters has been busily at work there for over a week. As cold weather will interfere a great deal perhaps with the work, it is thought that it will not be completed much before Christmas. The color will be changed from the present dull white to red.—Boonville Advertiser.

The number of persons carried by the various railroads and ferries during the Columbian festivities in New York last week was enormous. The business done by the elevated railroads was particularly large. The figures for the three days are 945,000 for Monday, 901,000 for Tuesday and 1,075,537 for Wednesday. The number of persons who passed through the Grand Central at Forty-second street during the three days is estimated at 300,000. The Pennsylvania Railroad brought in during Wednesday over the Desbrosses and Cortlandt street ferries 90,000 passengers, 90 per cent more than their usual traffic.

### A Wonderful Bridge.

The immense bridge over the Pecos river, in Texas, is one of the two or three highest bridges in the world—328 feet high and 2,080 feet long. It is on the line of the Southern Pacific railroad, 787 miles from New Orleans, and was built by the Phoenix Bridge company for the purpose of shortening the main line and reducing the grades as well as avoiding other difficulties incident to maintaining a railroad in the canyons of the Rio Grande. There were 48 spans alternating 35 and 65 feet long, except the channel span, which is a cantilever 185 feet long. The towers, the highest of which are steel, rest on masonry piers. They are 35x100 feet at the base and 35x10 feet at the top. The highest tower is 321 feet high, including the masonry. The floor of this bridge is covered with galvanized sheet-iron as a protection against fire, 32,500 square feet of iron having been used for the purpose.

### A LUNATIC HAD FIREARMS.

He Starts out on a Tour of Destruction with Fard Success.

St. JOSEPH, Mo., Nov. 8.—W. H. McClain, a lunatic was released from the workhouse yesterday and immediately started out on an errand of destruction. He hired a rig from Tullar's stable and drove to asylum No. 2, where he endeavored to make a contract for all the waste paper of that institution. In leaving he stole an overcoat belonging to Rev. Coulston of the Baptist church. From there he went to the shops of the St. Joseph Bridge and Iron works, where he set fire to a pile of rubbish, doing much damage to the building. Then he set fire to the South Park elevator, which narrowly escaped destruction. He stole a chisel and hammer here and was engaged in chopping brass from the machinery at the glucose works when arrested.

McClain belongs to an excellent family in this county and his insanity was caused by disappointment in a love affair, he having attempted to kill the young lady with a crowbar two weeks ago. He was sent to the asylum to-day.

### A "HOO NAN" EXHIBIT.

The Ladies of the City Hospital Fund Have a Meeting—The Mikado Performance.

The ladies of the city hospital fund held one of their most enthusiastic meetings at the Commercial club rooms yesterday afternoon. There was a large attendance and several important questions came up for consideration.

The purchasing of the Ingram property to be used as a hospital was again brought up and a committee appointed to confer with the advisory committee on Thursday afternoon at 3 p. m. at the club rooms.

The different committees canvassing the city for subscriptions and honorary memberships made their reports which were encouraging.

The Mikado entertainment is said to be well under way. Miss Helen Gallie is drilling the soloists, Chas. L. Taylor, the chorists, and the stage management will be under the direction of Mr. Wm. Latour.

The offer of the Greeley-Burnham Grocery Co., for the ladies to give a "Hoo Nan" tea entertainment was accepted.

Rev. Alexander Allen was present and made an address.

### Heard's Opinion.

Hon. John T. Heard was in this city last Tuesday night shaking hands with his numerous friends. He left Wednesday morning for Harrisburg, where he addressed the good people of that vicinity upon the political issues. Mr. Heard is in good spirits over the prospects of electing the National ticket, and is losing no sleep over Missouri. He says that Warner democrats are creatures of imagination and that Stone's plurality will be satisfactory to the democratic party. Mr. Heard, while at the big rally at Columbia last Tuesday, made some very happy hits in a ten minutes address. His sore throat prevented him from speaking longer, but nothing he could have said or done, even under the most favorable conditions, could have increased his popularity among the people of Boone county. No public officer in the state is more popular with his constituents or more highly esteemed than is Congressman Heard, and we predict that his majority will be the largest of any congressman from Missouri. BOB WILLETT IN ST. LOUIS.

He is Looked Upon as a Most Promising Actor by Members of the Warde-James Company.

Jack Gibbs and George Wright came back from St. Louis this morning where they witnessed a performance of Julius Caesar by the Warde-James company.

While there they met Bob Willett and found him unusually happy over his new calling. Jack says that Bob has exceeded all expectations and is looked upon by the members of the Warde-James company as a most promising actor. He is popular with his associates, who are lending him every assistance. In Julius Caesar he played the parts of Pindarus and Cinna. His voice, physique and facial lines are well adapted to such parts, and he looked every inch a Roman. Bob's friends in Sedalia wish him every possible success, and trust that the years will be few before he will be starred as "R. H. Willett, tragedian."

schools of that place. Supt. Smith has inaugurated a plan most beneficial for our schools, sending two teachers a week to Kansas City, to make notes of the methods in vogue there and adopting any of the commendable features.

### The Girl Taken Home.

Miss Nellie Yeomans, the 16-year-old young lady who ran away from her home at Lincoln, Neb., and came to Sedalia was taken to Kansas City yesterday afternoon by Marshal DeLong and turned over to her father, B. C. Yeomans, deputy United States marshal at Lincoln.

The two barbers disclaim any connection with having induced her to come to Sedalia, and their statements are substantiated by Miss Yeomans. The truth of the matter is said to be that she left her home in company with a traveling man.

### The Difference.

A young Sedalia boy to his father: "Say, pa, why is there such a difference between Barnum and Harrison?"

The old gentleman scratched his head awhile; "Well, my son, I hardly know. Why is it?" "Because Barnum has the greatest show on earth, and Harrison has none at all."

## CIRCULATION.

There are more Sedalia  
people regular readers of  
the EVENING DEMO-  
CRAT than any other  
paper.

DEMOCRATS, stand to your guns  
till the sun goes down.

Do you know of a friend who has  
not voted yet? If so there is time  
until six o'clock to perform this im-  
portant duty, but the sooner the  
safer.

DEMOCRATS get ready for a big  
ratification. Victory is in the air  
to-day and from Cleveland to Wal-  
lace the DEMOCRAT hopes there  
won't be a single victim of defeat.

Our morning contemporary had  
the misfortune to get its editorial  
page "pied" this morning. Its po-  
litical calculations will be "pied"  
this evening. In the former calam-  
ity it has the sympathy of the DEMO-  
CRAT, in the latter not at all.

THE Mexico Fair association an-  
nounces that it will pay the purses  
and stakes that were contested for  
at the late race meeting in that city.  
Mexico is too good a town to suffer  
the horsemen to lose their money  
and the sooner the matter is ar-  
ranged the better for all concerned.

SOME of these days it is to be  
hoped the election of a president  
will not depend upon the vote of  
New York, wisely remarks the Jeffer-  
son City Tribune. The vote of that  
state, to be true, is a prize  
worth fighting over, but the battle  
ground should be shifted elsewhere,  
even if only for a change of scenery.

THE campaign will be over at  
sundown. If any bitterness has  
a neighbors and  
matters let it  
as  
EDRUGGIST  
to the  
express

movement for the upbuilding and  
improvement of Sedalia.

THE Republic of to-day says that  
John M. Gates, the millionaire rep-  
resentative of the barbed wire trust,  
has brought thousands of dollars  
into Missouri to be expended in an  
effort to carry four of the congres-  
sional districts. But the people un-  
derstand, as never before, that an  
effort is being made to bribe them  
with money filched from them and  
they will resent it with their votes.

The bad weather of the fall has  
not set in yet. When it does, says  
an exchange, converts to the "good  
roads" movement will be reported  
from all over the country. There  
is less interest felt in the matter  
than there should be while the roads  
are dry and fairly passable; but  
when the mud begins to climb  
towards the knees of pedestrians  
and the hubs of vehicles, everybody  
appreciates the value and impor-  
tance of better roads.

## THE CAMPAIGN.

With the going down of the sun  
the campaign closes, and by to-mor-  
row we shall know the will of the  
people of the United States.

Personally the candidates were  
men of character and the national  
campaign has been remarkably free  
from personalities.

The advocates of industrial and  
commercial freedom have met in  
the battle of the ballot the hosts of  
protection, and the policy of the  
national administration has been  
decided.

If the democrats have won, our  
republican friends are free to share  
in the blessings our victory will  
bring to the country.

If the republicans have won an-  
other victory on the policy of pro-  
tection, they can place no burdens  
upon democrats that they them-  
selves are not also compelled to  
bear.

In public affairs the interests of  
the masses of the people are identi-  
cal; it is only in matters of opinion  
they differ.

Locally the DEMOCRAT has done  
what it could to support and  
strengthen the democratic ticket and  
has felt a real pleasure in doing so.

At the same time this paper has  
endeavored to treat the opposing  
candidates fairly and courteously  
and has not knowingly wronged a  
single one of its opponents.

We have felt that a newspaper  
must at all times be fair and con-  
siderate of the rights and feelings of  
others if it would win the confidence  
and respect of the community.

Hence, as far as this paper is con-  
cerned, it comes out of the contest  
with no malice toward any oppo-  
nent, with no grievances to entertain  
or grudges to gratify, and is ready,  
now that the campaign is over, to  
take up measures of importance to  
the community and to heartily co-  
operate with every citizen of Sedalia  
in any movement for the general  
welfare.

There is enough to do to keep  
every citizen busy and to occupy  
their time and attention to the ex-  
clusion of all thoughts of political  
battles that are past.

## WITH WORKINGMEN'S MONEY.

The despairing appeal which has  
been made by the Republican man-  
agers to the millionaires and monop-  
olists and the prompt response of  
the latter should set the people, and  
especially the workingmen, thinking  
says the Detroit Free Press. Why  
should this class with the Carnegies  
and Fricks and Cramps at the head  
be so deeply interested in Republi-  
can success that they contribute  
money by the million? Is there any  
other explanation possible than  
their expectation that they will get  
their money back? And how are  
they going to get their money back  
except by wringing it from the  
masses of the country—the toilers?  
There is no other way.

This view of the matter ought to  
interest every thoughtful worker in  
the land; and the interest will be  
quicken if they will take the  
trouble to ask themselves where the  
Carnegies and Fricks and their co-  
contributors to the corruption fund  
of the republican party got their  
money. If they will give a little  
thought to this matter they will see  
that it is their own money that Car-  
negie & Co. are pouring into the  
hands of the republican managers,  
that the workingmen themselves  
have furnished the means which are  
being used in repairing the machine

by which it was squeezed out of  
them.

This is no fancy picture. The  
evidence is at hand in tangible form  
that the McKinley tariff has been  
availed of to reduce the working-  
man's share of the products of his  
labor. Some of it is furnished by  
the report of the Massachusetts  
Labor Bureau to which reference  
has already been made in the  
columns of the Free Press. From  
that report it appears that in the  
boot and shoe industry labor's share  
of the product has been reduced  
since the McKinley act was passed  
a little over three per cent., while  
the employer's share has been cor-  
respondingly increased. In the  
carpetings industry the reduction  
has been nearly 13 per cent., and  
in the woolen goods industry nearly  
one and a half per cent. This  
means that in these three industries  
alone nearly a million dollars has  
been diverted from the pockets of  
the workingman to those of the  
employer. Is it any wonder that  
the protected monopolist is able to  
subscribe for the perpetuation of  
the scheme?

## WILL GET RETURNS.

The Different Places Where the Re-  
sults Will be Received by Wire.

To-night will be an exciting one;  
one of the greatest elections the  
country has ever seen will have  
closed, and of course everybody  
will be anxious to know how "their  
side" came out. The returns will  
be received by wire and bulletined  
at the following places:

The democratic club will have a  
wire running into its headquarters  
at Hurley's hall, over the Western  
Union office on Third street.

The flambeau club has secured  
the old Baptist church on Lamine  
street and will bulletin the news as  
long as they arrive.

Dunnigan & Rose will bulletin re-  
ports at their place in the rear of  
the Postal telegraph office.

McEnroe & Quinn will have a  
Postal telegraph operator at their  
saloon, corner of Main and Osage  
streets.

Chas. Raiffeisen will have returns  
at his saloon on West Second  
street.

## Good Roads.

From the Columbia Statesman.

It is safe to predict that within  
two years every state in the union  
will have taken some measure to  
provide itself with good roads. But  
few people realize the necessity  
of such roads—so it seems—or every  
county in Missouri would be pro-  
vided with such roads. They are  
Boone county's glory; they are  
more; they are the very backbone  
of our prosperity.

A driving rain occurred the night  
before our rally; for two days rain  
and fog had prevailed, yet such is  
the splendid condition of our roads  
and streets, that the hundreds of  
people moved with absolute comfort.  
In many other towns, the crowds  
that thronged our streets Tuesday,  
could not have approached. Let  
all towns take a lesson. If you  
want the show, fair or the rally, get  
good roads.

## The Boss Liar.

From the St. Louis Republic.

The boss liar now lives in Jerse-  
ville, Ill., and here is his latest  
effort, which he told to an admiring  
crowd at the Laclede the other day:  
"There was a man in southern  
Illinois," said he, "who invented a  
salve that he claimed was just the  
thing for cuts. If you cut your  
finger off, apply the salve and the  
finger would soon grow out to its  
normal length. One of the resi-  
dents of the town was somewhat  
skeptical, so he thought he would  
try it on his dog's tail. He cut off  
the tail and applied the salve, when  
almost spontaneously it commenced  
growing, and in a few minutes was  
as long as ever. In the meantime  
his little boy had picked up the end  
of the tail and put on some salve,  
and both the boy and the man were  
very much surprised to see a full-  
sized dog grow out from the end of  
the tail. The father and his boy  
are now dead."

## Lost Her Pocketbook.

Miss Alice Crawford, daughter of  
Dr. S. G. Crawford, had the misfor-  
tune yesterday afternoon to lose  
her pocketbook containing \$15 near  
the corner of Thirteenth and Ohio  
streets. She was passing down the  
street and is supposed to have  
dropped it when she pulled her  
handkerchief from her pocket.

She soon missed it and returned  
to the spot, but a patient search  
failed to recover it.

## COUNCIL MEETING.

The M. K. & T. Ricks Against Being  
Taxed for Paving—E. G. Church  
& Co. Bid on Third Street.

The city council met in regular  
session last night with Acting May-  
or Bell Hutchinson in the chair.  
Councilmen present: Bosserman,  
Deckman, Dean, Honkomp, Mc-  
Kinzie and Wigton.

The clerk read a petition from a  
number of citizens of West Sedalia  
asking for a crossing at Missouri  
and Park avenues. On motion of  
Mr. Bosserman, the clerk was  
authorized to request the Missouri  
Pacific to put in the crossings.

A communication was read that  
promises a racket when a settlement  
is attempted. Thos. E. Purdy,  
second vice-president of the M. K.  
& T., informed the council that his  
road would not be taxed for paving  
purposes and resist any attempts on  
the part of the city to collect such  
taxes if levied. The communica-  
tion was placed on file. E. G.  
Church & Co., who paved East  
Fifth street, will take legal action  
in the matter.

There was but one bid for the  
paving of East Third street from  
the west line of Lamine avenue to  
the east line of Hancock street, E.  
G. Church & Co. bidding \$2 per  
square yard. On motion, the bid  
was laid over until the next meeting,  
allowing the bidders time to look  
into the M. K. & T. interests in-  
volved in the paving.

On motion of Mr. Honkomp, the  
sewer committee was instructed to  
visit the uncompleted sewer, examine  
its condition and report at the next  
meeting.

As the old East Third street car-  
line had been abandoned, Mr. Bos-  
serman asked that the city attorney  
take steps to have the rails removed  
and the street put in a more proper  
condition for wagon traffic.

On motion of Mr. McKenzie, a  
resolution was passed to pave East  
Third street from the east line of  
Hancock avenue to Engineer street,  
excepting those portions already  
paved by Patrick McEnroe and Mc-  
Enroe and Doble. The resolution  
was ordered printed.

The council then adjourned until  
next Thursday night.

## A DOCTOR'S ADVICE.

Under and Outer Garments of One  
Class Useful in Preserving  
Health.

From the New York World.

There is an article of dress which  
has been in use for ages, and though  
recognized as worthy of being worn,  
has never been accredited its proper  
place in clothing the person. This  
is the leggin, which properly is but  
a reinforcement of the stocking.  
The name which marks it has a  
meaning which is simply implied in  
the pronouncing of the word, and  
that is 'eg-in, or otherwise a cover-  
ing for the leg.

The leggin is a garment properly  
belonging to the tender years of  
life, but may not be inappropriately  
carried to years of discretion or de-  
cline. It may be made of wool or  
leather, may be so constructed as  
to serve the purpose of an over-  
gaiter or fit the top of the shoe.

The leggin has a two-fold pur-  
pose to sanction its existence.  
One is warming the parts which it  
covers and the other is in toning  
the flesh and strengthening the cir-  
culation of the blood in these parts.  
A stocking is, of itself, not suffi-  
ciently conducive to health to give  
all that is needed in the way of a  
nether garment and the reinforce-  
ment afforded by an extra covering  
is both sensible and beneficial.

Many children, and many who  
have advanced in years, suffer from  
the ailments which are due, in cer-  
tain cases, to exposure of the limbs  
to the influences included in the  
term weather. Among these dis-  
eases may be classed rheumatism,  
chronic heart disease, quinsy and  
nasal catarrh, all of which it is  
possible to prevent by proper cut-  
ting of the lines.

In selecting the leggin it is well  
to bear in mind two essential points  
in regard to its make up. The first  
is its composition and the second  
its fitting. Lined leather with but-  
tons or laces and wool without  
either are best. The garment  
should give a sense of tension and  
at the same time not constrict the  
limb nor a positively free circula-  
tion, both going to and return-  
ing from the foot. In or-  
der to produce this desired effect the  
knee must be covered so that there  
is a uniformity of temperature of  
all parts below the thigh proper. Chil-  
dren who wear knickerbockers  
should always have their leggins  
reach at least three inches above the  
border or their trousers.

A word to mothers in regard to  
their girls may not be out of place.  
Give your girls leggins as soon as  
the weather demands extra clothing,  
and you will find a change in mus-  
cular and general physical develop-  
ment not to be classified with that  
ordinarily attained by a child hav-  
ing the surroundings incident to life  
in a city or in the country, where  
exposures are more frequent.

## AMUSEMENTS.

"The Private Secretary," the  
most amusing home-spun comedy  
will be produced at Wood's opera  
house Wednesday, Nov. 9.

Since its last presentation here,  
Mr. Gillette has made several im-  
portant changes in the play, which  
are chronicled as most emphatic  
improvements. He condensed the  
original third act into the second  
act, wrote an entirely new third  
act, giving an entirely different  
coloring to the finale of his humor-  
ous story. The comedy comprises  
many well known comedians, and  
was especially selected for the  
present tour by Mr. Edwin Travers  
to present the play in excellence,  
exceeding all past efforts. To this  
end he certainly has succeeded in  
receiving the encomiums of the  
press, where the company have  
appeared.

The old secretary is said to have  
renewed his youthful vigor of  
former days and seems to be in a  
much healthier condition than ever.

Unquestionably, he may be well  
christened the prince of consistent  
humor. His droll happenings, his  
numerous errors, interrupted with  
quaint sayings and ridiculous funny  
posings spun in a most artful man-  
ner by the clever author, keeps an  
audience in a constant strain of  
rich laughter, and those who have  
enjoyed it, seem to relish it as  
eagerly each season as at its initial  
introduction.

## A Cholera Scare.

A reported outbreak of cholera  
at Helmetta, N. J., created much  
excitement in that vicinity. Inves-  
tigation showed that the disease  
was not cholera but a violent dysen-  
tery, which is almost as severe and  
dangerous as cholera. Mr. Walter  
Willard, a prominent merchant of  
Jamesburg, two miles from Hel-  
metta, says Chamberlain's colic,  
cholera and diarrhoea remedy has  
given great satisfaction in the most  
severe cases of dysentery. It is  
certainly one of the best things  
ever made. For sale by Aug.  
Fleischmann, Druggist.

Too Much of a Risk.  
It is not unusual for colds con-  
tracted in the fall to hang on all  
winter. In such cases catarrh or  
chronic bronchitis are almost sure  
to result. A fifty cent bottle of  
Chamberlain's cough remedy will  
cure any cold. Can you afford to  
risk so much for so small an  
amount? This remedy is intended  
especially for bad colds and croup  
and can always be depended upon.

# BROKEN TREBLE.

A Train Goes Down a Ravine Forty  
Feet.

**AWFUL CRASH OF THE TIMBERS.**

Horrible Sight in the Yawning Abyss—Legs  
and Arms of Victims Project From  
the Heap—The Killed and  
Injured.

HAZLETON, Pa., Nov. 8.—The trestle spanning a forty foot ravine at Honeybrook broke, precipitating to the bottom loaded cars, with six men. The men were on their way to dinner on a train. While crossing the trestle the timbers gave way, precipitating the train and men to the bottom. The noise made by the cracking timbers and tumbling miners attracted the attention of other workmen, who rushed to the scene.

A horrible sight met their gaze as they peered into the yawning abyss. Nearly 50 feet below the surface could be distinguished a heap of debris with legs and arms and other parts of human victims protruding. Willing hands hurried to the assistance of the unfortunate men. Michael Karko was first uncovered. He met a horrible fate. Every bone was broken and his face was crushed beyond recognition.

The following were taken out alive: Giuseppe Costellin, foreman, both legs broken and body badly bruised; Andrew Hoxians, skull cracked and face cut; Michael Regattissa, fractured skull, arms and body crushed, will die; Vudanna Costaba, cut and bruised, injured internally; John Kodha, arm broken and back injured; John Baraska, chest crushed and four ribs broken, will die. All were removed to the hospital.

**HANGED HIMSELF IN CHURCH.**

A Dejected Janitor Commits Suicide in the  
Spire.

MILWAUKEE, Nov. 8.—For the first time in the history of Trinity Catholic church there was no second service. The break was caused by the discovery of the body of George Janke, the sacristan, hanging high up in the church spire after the congregation had filled the church. The greatest excitement prevailed for a time, after Father Conrad dismissed the congregation with the explanation that something terrible had happened.

Janke had been sexton of the church for five years. He rang the bell for services Saturday night at vespers, and that was the last seen of him. When Father Conrad found that his robes had not been laid out for service, he inquired for Janke, and not finding him, search was immediately inaugurated. The searchers finally climbed to the belfry, where they found Janke's body hanging on the highest beam. Father Conrad was notified and he immediately dismissed the congregation.

**TOM WATSON'S HOME.**

Excited Third Party People Threaten to  
Burn Thompson, Ga.

ATLANTA, Ga., Nov. 8.—The third party people in Thompson, the home of Congressman Tom Watson, threaten to burn the town and to annihilate the democrats. The mayor of the town, John L. Holsender, appealed to Gov. Northern for aid. The governor has ordered the military companies here and in Augusta to be ready for marching within a half hour's notice. Orders have also been given to the railroads for special trains if necessary.

Since Watson last week called out his followers to guard him they have declared that they would leave the town in ashes if they ever go there again. Nearly all the wives of the democrats have left Thompson and some of the families have moved away, as they fear for their lives.

**DR. Talmage in Connecticut.**

BIRMINGHAM, Conn., Nov. 8.—Mrs. DeWitt Talmage came here Saturday afternoon from New Haven and spent Sunday driving about town. Mrs. Talmage spent her school days here and came here, it is said, simply for a day's visit. Dr. Talmage spent all the morning in answering telegrams concerning his so-called disappearance. He left for New York with his wife at noon. The doctor was very much annoyed at the stories printed about his movements during the past few days. That part of the rumors and newspaper stories which referred to his wife's mental condition painted the reverend gentleman very much.

**Peck Decision Next Monday.**

ALBANY, N. Y., Nov. 8.—This was the day set for a decision in the court of sessions for a demurrer to the indictment of Labor Commissioner Peck and his stenographer, Elbert Rogers, on the charge of burning certain tariff courts and answers. Just before the court adjourned Judge Clute told District Attorney Eaton that he had reached a decision, but had not had time to consult with his associates about the matter. He announced that he would hand down a decision probably Monday next.

**Freight Wreck on the Wabash.**

ST. LOUIS, Nov. 8.—A freight and construction train came into collision in the tunnel under the King's highway on the Wabash road in the western part of the city and Bat Carmody, a fireman, was so badly injured that he will probably die. E. L. Hill, a brakeman, and John Murphy, an engineer, were slightly injured. Twelve cars were wrecked.

**Lake Schooner Probably Lost.**

CHICAGO, Nov. 8.—The wrecked schooner reported from Ludington, Mich., as having been seen off Point Betsy is believed here to be the B. F. Wade, which has been missing for two weeks. The vessel was owned by her captain, Lowry, and carried a crew of six men. It is believed that all hands perished in the recent big gales.

**Assistant Secretary Nettleton Resigns.**

WASHINGTON, Nov. 8.—Assistant Secretary Nettleton, who is now acting secretary of the treasury, has tendered his resignation to the president, to take effect December 31.

# THE LAST ESTIMATES.

Republican and Democratic Statements  
That May Be Proven True or False in a  
Few Hours.

NEW YORK, Nov. 8.—The work of the campaign was closed at both democratic and republican headquarters last night. The press bureau at headquarters was, however, kept going.

At republican national headquarters no typewritten matter was turned out. The members of the national republican committee who were here were kept busy. None of the committeemen would give out figures.

The republican state committee rooms were kept open. Chairman Hackett was confident of New York going republican. He said that on Friday last he expressed the opinion that the republicans would come down to Harlem bridge with 90,000 plurality, and he was even more confident since. He did not think the democrats in New York, King's, Queen's and Richmond would be able to get a greater majority in those counties than they did in 1888, and he thought that Harrison's majority would be larger than it was in that year in the state.

The expectations at democratic headquarters were announced as follows:

"There has been an increase of 50,000 in registration in New York, King's and Richmond. We should get no less than 90,000 majority out of them. The republicans will not meet this with more than 60,000, for there has been no increased registration in the rural districts, and therefore we expect 30,000 plurality for Cleveland in the state of New York. Chairman Harrity would give no figures on New York state. Of the general result he said: 'Cleveland will get at least 244 votes in the electoral college. They are: The solid south, 159; New York, 36; Indiana, 15; New Jersey, 10; Connecticut, 6; Michigan, 6; Wisconsin, 12. Total, 244. There is a fair probability also of Colorado, Illinois and Iowa.'

**ANARCHY IN CHICAGO.**

An Inflammatory Circular in the Hands of  
the Police.

CHICAGO, Nov. 8.—Chief McLaughrey is in possession of a document which apparently proves that anarchy in Chicago is not dead. The document contains three closely printed pages. A black line of mourning surrounds the following announcement on the first page: "In memoriam of the working people murdered at Chicago on November 11, 1887. Great demonstration at Uhlich's Northern hall, Clark and Kinzie streets, Friday, November 11, 1892, 8 p. m., under the auspices of the International Working People's association of Chicago, Ill."

Though carefully guarded, the language is throughout inflammatory and advocated bomb throwing and the dagger for the "Modern Caesar," supposedly the chief of police. Maj. McLaughrey has information that thousands of the pamphlets have within the last three days been secretly circulated in the city market.

**POLITICAL MURDERS.**

Another Crime Growing Out of the Elec-  
tion in Indiana.

INDIANAPOLIS, Ind., Nov. 8.—The rapidly growing number of political murders in Indiana was augmented at Cassville in Clay county, by the killing of Edward Kirkwood by Mike Hanlon. Both are miners. They got into a quarrel over politics, the bystanders took it up and a general street fight ensued. Hanlon grabbed a pop bottle and struck Kirkwood a crushing blow over the head, cutting him in a terrible manner. The broken bottle also severed the jugular vein, cutting a terrible gash in his neck. Kirkwood's skull was fractured, and he slowly sank until his death in the morning. The murderer is still at large, although a posse is in pursuit. The murdered man leaves a large family. Hanlon is a single man about 29 years old.

**Won By Missouri.**

COLUMBIA, Mo., Nov. 8.—The Iowa football team was defeated here by the Missouri state university by a score of 24 to 0. Columbia was jubilant on account of the victory. Torchlight processions, firing of cannons, tin horns, and the yelling of 700 students were only slight indications of the enthusiasm. The excitement of the election faded into insignificance. There were few and special features in the game.

**United States Deputies Restricted.**

WASHINGTON, Nov. 8.—Last evening Attorney-General Miller authorized the statement that United States deputy marshals would not force themselves behind the guard rails at election booths in New York city or elsewhere and would only go beyond the limits prescribed by the state law in order to make arrests or preserve the peace.

**A Blizzard Up North.**

ST. PAUL, Minn., Nov. 8.—It has been snowing and blowing throughout Minnesota and the Dakotas for twelve hours. Six inches of snow have fallen, which has drifted badly. It will interfere with the farmers getting to the polls. At 11 p. m. it was clearing up and to-day the forecast indicates that the temperature will run down almost to zero.

**Hon. A. M. Alexander Dead.**

PARIS, Mo., Nov. 8.—Hon. A. M. Alexander died suddenly at his home in this city of heart disease, aged 59 years. He was a prominent member of the bar, a member of the Forty-seventh congress, a past grand master of the Odd Fellows and a leading member of the Christian church. He was a member of the constitutional convention of 1875.

**Mangled by the Cars.**

WICHITA, Kan., Nov. 8.—Patrick Egan, a car repairer, was killed in the Santa Fe yards last evening. He was caught between two cars and horribly mangled. Egan took the place of Charles Tracy, who was killed in just the same way a month ago.

**Blaine Calls on Harrison.**

WASHINGTON, Nov. 8.—Ex-Secretary Blaine came over to the White house in a cab yesterday afternoon and had an interview with the president for the first time since his return to Washington, so far as known.

# NO WORK DOING.

New Orleans Snagged Up in the  
Strike.

**OFFERS OF ASSISTANCE TENDERED.**

Planters and Others Affected Will Do Any-  
thing to Break Up the Strike—Gov.  
Foster Consults the Chief  
Justice.

NEW ORLEANS, Nov. 8.—There is practically no change in the strike situation here. No work is being done and the only sign of activity is in the wholesale district, against which the strike is principally directed. The new men there are willing to remain at work until violence is so general as to make it unsafe for them to continue. The stopping of their labor would lead to the closing of the wholesale groceries till the strike is over, the merchants saying that they are ready to close from thirty to ninety days and fill their country orders direct from the west.

Some of the largest planters of the state were in the city and said that the strike meant so much to them that they were willing to answer the first call for men or money sent out by the merchants. As soon as the election is over the real battle will begin and it is believed that the city authorities will throw off a good deal of the lethargy charged against them. Gov. Foster held a conference with ex-Gov. Nichols, the chief justice of the supreme court, and other prominent lawyers, and it is said to be their opinion that under the law of the state the governor can step in to preserve the peace without waiting to be called upon by municipal authorities.

The most serious feature of the situation was the suspension of the lighting system—gas and electricity—and some relief was felt when the officers of the two electric light companies called upon the mayor and said they thought they could furnish light if guaranteed protection for men engaged to take the places of those on strike. This was readily promised.

During the afternoon President Levert, of the Sugar and Rice exchange, called and asked that protection be furnished those interests. Nearly 40,000 barrels of sugar and molasses besides other products and merchandise lay on the levee, he said, at the mercy of fire and public tumult, and if the mayor could not furnish the force required the exchange would tender men to be sworn as special officers. The mayor agreed to commission any such men.

**MURDEROUS YAQUIS.**

Indians Attack the Hacienda of a Settler  
in Mexico.

PHOENIX, Ariz., Nov. 8.—A numerous band of Yaqui Indians attacked the hacienda of Alexander Lacy, a short distance from Artiz station and just across the Mexican line, last evening. At the time of the attack Mr. and Mrs. Lacy and child were seated at the supper table. The Indians fired twice into the room hitting Mrs. Lacy. The lights were extinguished and dishes scattered. Mr. Lacy reached a tower commanding the outside and after several hours drove the Indians off, but not until they had succeeded in killing two Yaqui servants and compelling twenty others to accompany them. Mrs. Lacy is seriously wounded. Soldiers are in pursuit of the Yaquis.

**Fight Between Cadets.**

CHARLESTON, S. C., Nov. 8.—J. G. B. Beckwith, of Orangeburg, went to the South Carolina military academy with two friends and called for Cadet McClellan. When the cadet appeared Beckwith struck him with a riding whip. McClellan promptly let his fist fly and brought Beckwith to his knees. The two men grappled and when separated Beckwith had received severe punishment. The encounter arose over Beckwith not allowing McClellan to meet his sister last summer. Both belong to influential families.

**No Trouble in Alabama.**

MONTGOMERY, Ala., Nov. 8.—The danger of a collision between the state and federal authorities in the election has passed away. A conference was held last evening between attorneys representing Chairman Shelly, of the democratic campaign committee, and United States Marshal Walker. All the authorities and decisions bearing on the subject were carefully investigated and state rights were agreed upon by Judge Hughes. This agreement guarantees quiet during the election throughout the state.

**Cherokee Council in Session.**

TALIEQUAH, I. T., Nov. 8.—The Cherokee council met here yesterday. No business was transacted, for want of a quorum. Speaker Clark, of the lower house, in his opening address stated that any member who came into the council chamber intoxicated would be fined and requested that he be fined \$10 for a like offense.

**Grain Elevator Burned.**

TARKIO, Mo., Nov. 8.—A disastrous fire occurred at the little city of Westboro, a station on the Kansas City road in this county, the grain elevator of James Brister being entirely destroyed by fire.

**CONDENSED TELEGRAMS.**

The Esquimaux baby born the other day at the world's fair grounds died from the effect of a sore throat.

Lord Melrose, the largest St. Bernard dog in the world, died at the Melrose, Mass., kennels of gastric colic. He was thirty-five inches high and weighed 215 pounds.

George F. Sanford, the big left guard of the Yale university football eleven, broke one of the bones of his ankle at the regular practice of the team. He will be unable to play any more this year.

The correspondent of the London Times at Fez, Morocco, says it is rumored there that the government of France has proposed the formation of a French-Moorish offensive and defensive alliance which would be tantamount to a French protectorate.

# CLOSE OF THE CAMPAIGN.

The Electoral College—The States Certain  
and the States in Doubt—The Next Sen-  
ate.

NEW YORK, Nov. 8.—The political campaign, which virtually closed yesterday, is undoubtedly the most unique in the present generation as being the first since the war in which so many states are admitted to be in doubt, and also because the electoral vote is liable to be divided between three political organizations with a possibility of the house of representatives being called upon to settle the contest.

The electoral college will consist of 444 members and according to the best attainable advices the following table shows the situation at present:

STATES.	Electoral College	States in Doubt	States in Doubt
Alabama	11	8	11
Arkansas	11	8	11
California	11	8	11
Colorado	11	8	11
Connecticut	11	8	11
Delaware	11	8	11
Florida	11	8	11
Georgia	11	8	11

Hoist the cold wave flag; temperature will fall about 30 degrees by 3 p. m. to-day.

### The Queen Studying Hindostance.

Queen Victoria some time ago commenced studying Hindostance and her tutor declares that she is a more apt pupil and knows a great deal more of the language than the sultan of Turkey, the head of the faithful. The queen has several Hindoo servants in her household and all her conversation with them is carried on in their native tongue, a fact which perhaps brings home to their minds that her majesty is indeed empress of India. Victoria is so proud of her accomplishments in this direction that she is sending a contribution to the Christmas number of the Strand magazine. It will consist of a letter sent to the queen and the well known letter to the English people after the death of the duke of Clarence, both of which have been translated into Hindostance by the queen, and will be so printed in the magazine.

### POLICE COURT.

A Lively Time Last Night Causes  
Much Boe to the Headless—  
A Big Boeet.

Recorder Rauck sized up the crowd this morning and wondered what it would be to-morrow morning, judging from the present start. The excitement of the election proved too much for several and they proceeded to make a record by getting drunk, fighting, etc.

John Blue, S. R. Kissner and A. F. Gilfillan were each up for drunkenness and carrying concealed weapons. P. D. Hastain appeared for their defense and their cases were continued until to-morrow.

J. Sweeney, drunk and disturbing the peace, got \$5 on the first count and \$7 on the last.

Jas. Murray got filled with the fury of Bacehus and had to be locked up. A \$5 fine settled him.

Wes Perry disturbed the peace to the extent of \$15.

Wm. Wicher was charged with disturbing the peace, but his case was dismissed.

Wm. Craig, he of the perpetual jag and the perennial nose, was fined \$10 for getting drunk.

George Ford did the same thing and was made sorry by a \$10 fine.

Dug Nelson had concealed weapons upon his person and was fined \$10.
